

## Guideline for *Open Source Promotion Plan Management System*

The users who have access to this system are restricted to the following roles: *Administrator, Organization, Student and Mentor.*

The information collected in the system is only served to this program operation. The organizing committee will take reasonable measures to protect private data, personal identity information and other sensitive information.

### **Overview of System Permission:**

#### *Administrator*

- Release Program
- Organization Management
- Student Management
- Assign Administrator Account

#### *Organization*

- Complete Organization Information
- Apply For Program (Complete Questionnaire)
- Release Projects

#### *Student*

- Complete Personal Information
- Apply For Program (Available on 10, May, 2021)
- Apply For Project (Available on 10, May, 2021)

#### *Mentor*

- Select the students who undertake the project
- Review mid-term/final project output

#### Tips:

*Organization* and *Student* need to register account via e-mail to log system. *Mentor* will be assigned account by system automatically after his/her organization completes project release.

On account of the different permission between *Organization* and *Mentor*, please fill in different e-mail address if the organization registrant and mentor is the same person.

## 【Organization Guideline】

1. The contact person of organization registers the account via e-mail and will receive the verification mail (as the following) to login system.

发件人: summer<summer@iscr.iscas.ac.cn>

Confirm Close

5. *Organization* completes the all functions assigned by the system after the project approved by organizing committee.

The screenshot shows a web application interface for 'Open Source'. The top navigation bar includes 'Full Screen' and 'Personal Center'. The left sidebar contains 'Organization Information', 'Program List', and 'Released Project'. The main content area displays a table of released projects with the following data:

Project Name	Project ID	Program	Project Description	Degree of Difficulty	Application Date	Status	Operation
	210180018	Summer2020	Young people from rich families are still much more likely to get top places at top universities, says this report from higher education experts. And they say one practical measure to widen access would be for two of the most prestigious universities, Oxford and Cambridge, to create more places.
